

Bullying and Cyberbullying Scenarios

1. Malik has just joined the school. He sees his teacher struggling with some books and goes to help him. A group of students see this and mutter 'freak' under their breath at him. Every time they see him around school they shove him when they pass him.

2. Jade overhears her friends talking about a party they are going to at the weekend. She asks them where it is and they change the conversation and pretend to ignore her question. That weekend she sees them posting pictures from the party online saying 'best friends forever'.

3. In every English lesson, students get into groups with each other for group work. Every week, all the other students refuse to work with James, saying that he smells and is dirty. Sometimes they pass him notes with a picture of a shower and tell him to 'have a wash'.

4. Rhea has been friends with Martha for two years. Rhea checked her phone at break time and saw that Martha has put up a social media status about how she hates hanging out with snitches and has tagged her in it. Later that day she finds that Martha has blocked her on all the social media sites and won't pick up her calls.
